THE BEGINNING
of C.R.I. way back in 1961, was a relentless attempt to produce a few irrigation equipments using the limited facilities of an in-house foundry. Eventually the founder’s dream was coming true as the small production unit he started kept growing rapidly. Now, after more than five eventful decades, it is an enormous, widely reputed organization, which produces more than 3000 varieties of perfectly engineered pumps and motors and sells its products in numerous countries spread across 6 continents.

C.R.I. IS ONE AMONG
the few pioneers in the world to produce 100% stainless steel submersible pumps. Having achieved a record production capacity of over 2 million pumps per annum, today C.R.I. is rubbing its shoulders with the best brands in the world, with advanced technology and safety standards as its hallmarks.

THE INFRASTRUCTURE
of C.R.I. is pretty comprehensive with state-of-the-art machineries and high potential in-house R&D recognised by the ministry of science and technology, Govt. of India - all within its own covered area of 300,000 square meters. The production environment is accredited with ISO 9001, ISO 14001 & OSHAS 18001 certifications and the products are CE, UR/UL, TSE & ISI certified. The R&D team always stays in tune with the changing scenario and seldom fails in coming up with outstanding solutions every time.

NEEDLESS TO SAY,
behind this legendary growth lies the untiring, innovative, enthusiastic and dedicated team work. and, of course, a flawlessly maintained value system too. The name C.R.I. itself encapsulates the company’s ethos: “Commitment, Reliability, Innovation”.

C.R.I. Submersible cables

Description
C.R.I. submersible cables are produced in a well equipped manufacturing plant using high thermal stability, bright electrolytic copper of 99.95% purity with low conductor resistance for high current carrying capacity with superior grade rubber & PVC compounds. Outer sheath is made up of special grade water proof PVC / Rubber compound resistant to moisture, abrasion, grease, oil and other environment affect. C.R.I. produces different types of submersible cables in a wide range to meet the different needs of customers across the world. C.R.I. supplies cables in both SWG and AWG dimensions. These cables are produced keeping vagaries of field conditions voltage fluctuations into account to ensure reliability, safety, longevity and energy saving.

Features
* 99.95% EC Grade Copper  * High Conductivity  * Better Thermal Stability  * Abrasion Resistant PVC Compound  * High Ageing property  * Impervious to water, oil & Grease

Applications
To supply power to submersible motors, pumping equipments & industrial machineries.

Specifications

| Available sizes in Sq.mm | 1.5, 2.5, 4, 6, 10, 16, 25, 35, 50, 70, 95, 120 & 150 (3 core and 4 core) - 1100 V |
|---------------------------------------------------------------|
| Available sizes in AWG | 14, 12, 10, 8, 6, 4, 2, 1, 1/0, 2/0, 3/0, 4/0, & 250 MCM (3 core and 4 core) - 600 V |
| Armoured cables sizes available in Sq.mm | 1.5, 2.5, 4, 6, 10, 16, 25 & 35 (3 core and 4 core) 1100 V |
| Temperature Range | -40°C to +90°C |
| Conductor | High conductivity annealed and bunched copper |
| Conductor material | Plain / Tinned |
| Conductor Resistance is as per | PVC / Rubber Std - Class 5 of IEC60228, DIN VDE 0295, IS 8130, BS 6360 |
| | PVC / Rubber AWG - Class 5 of IEC60228, UL 93, DIN VDE 0295, IS 8130, BS 6360 |
| | Armoured Cable - IS : 1554 (Part 1) 1988 |
| Insulation material | Flexible water proof PVC / Rubber |
| Sheath material | Flexible water proof PVC / Rubber |
| Sheath color | Black / Blue / Green / Any other color as be specified by the customer |
| Standards conforming to | PVC Std - CENELEC HD 21, IEC60227, BS 6500, DIN VDE 0281, IS 694 |
| | Rubber Std - CENELEC HD 21.152, DIN VDE 0282, PART 810, IEC 210, CEI 20-19 & BS 6007, BS 6899 |
| | PVC AWG - UL 93, IEC 60227, BS 6500, IS 694 |
| | Rubber AWG - UL 83, IEC 60245, DIN VDE 0282, PART 810, BS 6007 & BS 6899 |
| | ARMOURED POWER CABLE - IEC 60502-1, BS 5467, BS 6724 |

Colour Coding : PVC / Rubber Insulated & Sheathed 3 & 4 core, flat & Round (Single / Double sheathed)

<table>
<thead>

C.R.I. Z FIRE FR BUILDING WIRES

C.R.I. Z FIRE FR Building Wires are manufactured at its state of the art manufacturing facility located in Coimbatore, India. The systems at the manufacturing facility are certified for ISO-9001 and the product manufactured to meet the relevant PVC cables standards IS 694.

Conductor

These wires are manufactured using Electrolytic Grade 99.97% purity copper with more than 100% conductivity. The conductors are drawn using state-of-the-art multiwire drawing machine as fine wires and bunched with concentricity according to IS 8130. High purity and conductivity of copper ensures greater saving of electrical energy which helps to reduce electricity bills.

Insulation

The bunched conductors are insulated with specially formulated and in-house manufactured FR-(Flame Retardant) PVC compound with high oxygen index and temperature index. These properties help in restricting the spread of fire even at very high temperatures. Wires are insulated with double layer, Natural FR PVC compound as first layer and Natural + Skin color as second layer which gives double protection in insulation.

All wires are tested with online high voltage spark tester to ensure that there are no weak spots in the insulation, pin holes, black spots and any other defects during extrusion. These wires meet the requirements of IS 694 with latest amendments with improved fire performance for category C1. This ensures extra protection against electrical shocks, short circuits and fire.

Nominal Area of Conductor | No. of strands/ Nominal Dia of wire** | Thickness of insulation (Nom.) | Approx. Overall Diameter | Current Carrying Capacity | Max. Resistance per km @ 20°C as per IS 8130

### WINNING WAYS

When you have a good thing going it is quite

- In the fitting of things that recognitions come

Our way. Several prestigious awards, which

- Decorate our shelf, say it all. These rewards

Not only acknowledge our position as a leader

- In the water pump industry but also serve as

Reminders about what the customer expects

- From a winner. And we, as ever, have our ears

Perfectly tuned to customer expectations.
